NOT DISCOURAGED,
THOUGH OFTEN PRACTICING TO FIVE TO
TEN PEOPLE.

Under date of March 22, Rev. Geo. C. Barnes writes to Mrs. Welch from 1,635 P. Street, N. W., Washington, as follows:

DEAR SISTER.—I haven't anything additional to report except a marked increase in our week-night congregations. It has required "right smart" of faith to go on for more than two months, preaching every night to a congregation varying from five to 10. To some, it would savor of fanaticism or idocy, but it is faith—so often mistaken by those who are ignorant of "the true inwardness" of a Christian's "heavenly calling." So I have preached my "level best" "all along the line," and have never, for a moment, felt like "giving it up." As for more numbers, I can always preach with greater freedom to a "corporal's guard" of hearers, than to a vast multitude; but, of course, for the sake of the good cause, I crave larger audiences.

Whether it has got abroad that I am now preaching on the first three chapters of Genesis—about which the forces of scepticism, in and out of the church, have lately gathered. I don't know. But certainly, for some reason, either earthly or real interest has attracted a goodly number of strangers to the "Church of the 4 Gospels." In either case we "Praise the Lord" and "take courage." I am here, by grace, to fight it out, on this line, if takes all summer. So far, in the most wonderful way, the dear Lord has "supplied the lack of service" that poor, dear old Kentucky, ought to have rendered, and our wants have been met from day to day, as they arose, so that we have "lacked nothing." Col. Hill's remark that this is "a rich city" is perfectly true; only it riches, unfortunately, are not at my disposal; and its further remark that it "ought to support me" is also just. Only it don't "support" me; I should have starved in sight of its riches!

"Oceans of water all around,
But never a drop to drink!"
Had not "support" come from persons and places upon whom I had very little claim, compared with "Old Kentucky"? But not another line on that subject. It still affects me with spiritual nausea when I think of it; while, the Lord be praised, I very seldom do. I think, often, of the dear Stanford folks, and would like much to tell them, "thou art new and old," the Lord has taught, and is still teaching me; but it is unlikely, I shall ever have my wish gratified. It will only be "the twirling of an hour glass" till we shall see him and dispense with other teachers forever.

NEWS OF THE VICINAGE.

Thomas Durham, 50, died at Kriegton.

J. A. Hoover, of Boyle, aged 61, is dead.

Kirk Shelton, sent up from Pulaski, or five years for arson, was pardoned.

Sam McClure, of Rockcastle, took the bankrupt law, with \$617 liabilities and no assets.

Carter Langford, of Alton, Boyle county, weighs 176 pounds although but 13 years old.

Nannie Sumner, aged 10 years, was burned to death near Williamsburg by her clothing catching fire.

Mrs. Fitzer, aged 80, died of paralysis at the home of her son-in-law, Hon. John D. Black, at Harroldsville.

James M. Miller, a farmer, fell from his buggy near Lebanon, and was caught in the wheels and killed.

Mrs. Hafner, a sister of Hunker J. R. Hafner, died in Kansas and her body was brought to Pineville for burial.

John Williams, colored, charged with stealing a horse from Charles Todd, of Richmond, was captured in Lexington.

Mrs. Margaret King, of Whitley county, convicted for selling blackberry wine, was pardoned by Gov. Worthington.

The Garrard grand jury found 54 indictments, including 18 against the Standard Oil Company and 14 against insurance companies.

Tico, S. Owens, of Knox county, and W. M. Howard, of Harlan, were among the seriously wounded in the battles with the Filipinos near Manila.

Judge C. R. McDowell lost out in the court of appeals, which sustained Judge Toney's decision that he was not entitled to \$2,500 fee in a building and loan association suit or for any other amount.

J. R. Sawyer, who killed young Herbert Burnside at Harroldsville, by stabbing him, has had his sentence again commuted by Gov. Worthington. It was originally 21 years. On a former petition he cut it to 10 years and now he cuts off five of that.

Mary Brewer, the two-year-old daughter of Elder W. P. Walden, died in Harroldsville of pneumonia and the remains were brought to Lancaster. This makes three deaths in the family in about six weeks, extending in age from the great-grandmother, Mrs. Little Leavell, 84, to the infant of the fourth generation.

LANCASTER.

Mr. Joe D. Pope and Miss Alice Turner were married on Thursday, 23d.

Hon. R. C. Warren is making a good judge and will dispose of the docket about the middle of the week.

County Clerk J. M. Duncan says that today's county court was the dullest on record. He didn't even issue a marriage license.

Col. Joe F. Waters here working the endowment rank of the Knights of Pythias and meeting with much success, as he does everywhere he goes.

After an absence of three weeks, I had but little news to report as the watchful eyes and trained ears of the INTERIOR JOURNAL have caught it all.

Squire Ike Myers attended the burial of his sister, Mrs. John Herne, at Covington, Saturday. She was a great sufferer, having been an invalid for years.

C. C. McCord, candidate for railroad commissioner, made a brief speech at the court-house yesterday. Knowing ones say McChord will get the instructions of Garrard, but that the delegates will be friendly toward McCord, if not McCord men.

Mr. John Hays, a prominent attorney of Harroldsville, has formed a partnership with Hamilton & Robinson, and they will office over C. D. Powell's stores, north side of public square. This will make an able firm and they will get their share of the business.

Our Commercial Club is doing some good work toward the extension of the Louisville Southern Railway from Burgle through this county, and it is confidently believed that its efforts will be crowned with success. Nothing would be more beneficial, as competition in freight is much needed.

Capt. Thomas Austin and Mr. T. J. Hatcher have bought the county right for the use of a device to clean cisterns without removing the water. It is placed on the bottom and by moving it around, all the filth is pumped out without mixing it with the water. Those who have had the work done pronounce it a perfect success. Everybody should take advantage of it as more disease is brought about by impure water than in any other way.

One people are still fearful that the fire insurance companies will withdraw from this city on account of the judgments found against them, but I do not think this will occur. The policyholders had rather pay even more than they are now paying than to be left without protection, and if they are satisfied everybody else should be, and the judgments should be dismissed for want of prosecution. Many are also complaining because the companies were not indicted in Stanford and Danville if the same rates are in force there.

During my stay in Liberty I fell in love with the people. They are made up of the genuine type of manhood, being highly intelligent, social and affable. The lawyers, public officials, doctors, merchants, bankers and mechanics are far above the average and the thrift and beauty of the growing little city is a proof of this assertion. I met several old Lincoln county friends, among them, Maj. Drye, Ed. Montgomery and W. D. Stagg, the latter recalling memories of 30 years ago. Leading democrats told me that the county would instruct for Gen. P. W. Hardin for governor. While there, parties passed through, prospecting for building an electric railway from Moreland through Hustonville and Liberty to Tennessee. The people are favorable to the enterprise, and it is believed that the road will be built in the near future. Indeed there is no reason why it should not be, as there is much good land in that country and the travel together with the commercial demands in exports and imports, would support the road very handsomely.

President H. E. Woolfolk, of the K. P. A., has appointed the following delegates to the next annual convention of the National Editorial Association, which will be held at Portland, Oregon, in July: Charles M. Lewis, of the Sentinel, Shelbyville; Harry Tandy, News, Paducah; W. Q. Adams, Inquirer, Owensboro; Louis Landrum, Record, Lancaster; M. F. Conley, News, Louisville; and J. R. Collier, Franklin, favorite. Alternates: J. M. Allen, Democrat, Cynthiana; C. C. Paro, News, Glasgow; J. J. Glenn, Hustler, Madisonville; John L. Bosley, Reporter, Paris; Wallace Mackay, Tiger, Shepherdsville, and Clarence E. Woods, Clifmax, Richmond.

The Eagle, KING OF ALL BIRDS, is noted for its keen sight, clear and distinct vision. So are those persons who use Sutherland's Eagle Eye Salve for weak eyes, sore eyes of any kind, or granulated lids. Sold at Penny's at 25 cents.

Our exchanges are still publishing the big wheat sale made by J. C. Caldwell, of Boyle, to Anderson & Spilman, the Danville millers. This item is so old that the L. J. realizes that it is almost time we were publishing it again to keep it green in their memory.

MRS. CATH BAILEY.

A LOVING TRIBUTE TO A GOOD WOMAN.

At the last meeting of the C. C. Aid Society the following tribute to the memory of one whom God in His wisdom has seen fit to remove, was passed upon, to be entered upon our minute book, and published in the INTERIOR JOURNAL.

In the death of our sister, Mrs. C. J. Bailey, we lose one of our few dear members, and thus another link in the chain which bound us to a time when the sun shone brighter, the sky was more blue, and the roses bloomed more abundantly; the glad days when "Aunt Cath," in the meridian of life, the moon of usefulness, went in and out among us, a staunch, zealous member ever—our president at one period for some time—honored and respected, discharging the duties of the position in a timid, though dignified manner, ever jealous of the interest of the society and the cause it represented.

We shall miss her. We loved her; and were beloved. We need no gift to tell of her virtues; her life is an "open book." Let memory of her shine as a beacon, to lead where she has gone. May no thought that she has fallen victim to the dark winged messenger ever cloud this memory, for was not her, a "Well rounded life to a circle fair?" and "has passed into a region yet untried to read what is yet unread in the manuscript of God."

Matley the eye of faith we behold "Aunt Cath" upon that glorious morn "adorned as a bride for her husband."

For are we not all to be renewed, when he comes to take his ransomed home? Until then may the green continuance green and the dews shed its sweetness and luster upon her resting place.

II.

DISCOVERED BY A WOMAN.

Another great discovery has been made and that recently in this country. "Diseases fastened to children for years" have been cured by its secret tests, for her vital organs were undermined and death seemed imminent. For three months she struggled incessantly, and could not sleep. She finally discovered a way to recover, by putting on a bandage of the King's New Discovery for three months, and then dressed in taking first dose that she slept all night and with two baths has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hambrick, of Shelby, N. C. Trial bottles free at Penny's Drug Store. Regular size \$2.00 and Every bottle guaranteed.

TO THE NORTH.—The Queen & Crescent Route has inaugurated a service of observation cars on the famous Blue Grass Vestibule between Cincinnati and Lexington. Free parlor cars and Queen & Crescent standard vestibule day coaches. Four trains daily to Cincinnati with close connection with all trains North. Queen & Crescent trains are without a peer in the South; 17 miles shortest line, unequalled train service. W. C. Kincaid, G. P. A.

THAMHERLAIN'S COUGH REMEDY.

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it relieves disease of all dangerous consequences. Sold by Craig & Hucker, Drugists.

COLORED RECRUTTS.—The war department has wired Lieut. W. T. Johnson, recruiting officer at Lexington, Ky., to enlist colored applicants for cavalry and infantry service, sending the former to Fort Grant, Arizona, and the latter to Fort Douglas, Salt Lake City. This is an excellent opportunity for young colored men to get into the regular army. Recruits for white infantry and cavalry regiments are also wanted. Apply to Lieut. W. T. Johnson, Main St., Lexington, Ky.

GLOBAL NEWS.

comes from Dr. R. C. Collier, Washington, D. C. He writes: "Our bottles of Uncle Bitter's has cured Mrs. Brown of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face. The best doctor could give no help, but this cure is complete and has remained so ever since. I have now thought of—indeed, have planned—that Uncle Bitter's is the best blood purifier known. It's the supreme remedy for a croup, tertian, salt rheum, asthma, both and intestinal sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength, etc., etc. Sold by Penny's Drug Store. Guaranteed."

The Lexington Standard, edited by a Negro, says: "The Negro is imitative. He apes the white man in almost everything, even as a thief. The only trouble is that the Negro makes a batch of it. For instance, the white man steals the money of the widows and orphans and the hard earnings of the laboring man, from the banks, and decamps to foreign fields and pastures new, but the Negro seems satisfied with a chicken or a can of sardines, just enough to get him in prison."

THE APPETITE OF A GOAT.

Is caused by all poor dyspepsia whose Stomach and Liver are out of order, and should know that Uncle Bitter's gives a splendid appetite, sound digestion and a regular bodily habit that assures perfect health and great energy. Only 25 cents at Penny's Drug Store.

The tea imports in 1898 were 88,010,000 pounds.

POLITICS AND POLITICIANS.

Ex-Gov. Fletcher, of Missouri, is dead at Washington of paralysis.

Binding twin is now admitted free of duty. Score one for free trade.

All three of the candidates for the Legislature in Clinton are preachers.

The president will get back to Washington from his Southern outing today.

Of the 18,463 bills and resolutions introduced in the last Congress, 1,451 became laws.

An elaborate Jefferson day banquet will be given March 30 at Topeka, Kas., with covers for 1,500.

The republican railroad commissioners' convention for this district, will be held in Louisville April 11.

The Tennessee Legislature has passed a law prohibiting the making of any contract hereafter to be paid in any thing but a legal tender.

Angusta will erect a monument to the Hon. Patrick Walsh. The idea is to put up a bronze statue of heroic size.

Secretary Alger and his party arrived at Havana after having lost their way at sea for several hours. Owing to the delay there was no reception.

H. D. Morehead, son of the late Ex-U. S. Senator and Gov. Morehead, of Kentucky, died at Cincinnati, where he amassed a fortune and made a fine reputation.

Maj. J. Embry Allen defeated Capt. W. H. May for the Senatorial nomination in Fayette, and Solomon Van Meter was nominated over Jas. Humphreys for representative.

It is stated on pretty good authority that Senator McChord is Senator Goebel's choice for railroad commissioner and that his nomination will be a victory for the Covington man.

John S. Smith, of Paris, candidate for attorney general, says he is related to all the Smiths in Kentucky and as he expects the support of them all he is sure of nomination and election.

Asked what he thought of Bryan's controversy with Belmont, Senator Lindsay said: "I was not of those who supported Bryan and do not care to criticize, though I can say nothing in his favor."

The most enthusiastic as well as the largest crowd that has gathered to hear Senator Goebel speak heard him at Elizabethtown Saturday evening. A dispatch says the ovation he received was almost equal to that given Mr. Bryan in 1896.

The sudden springing of Postmaster Edwards, of Lawrenceburg, into the railroad commissionership canvass, when Irwin was about to be declared the nominee, is said to be an effort of the Hunter-Todd crowd to down the captain, who is a Bradfay man.

Bryan says: "What the Lord's Supper is to the christian, so a Jefferson banquet is to the democrat. Just as a good christian would revolt at having the sacrament administered by an infidel, so a good democrat objects to having a Jefferson banquet presided over by Perry Belmont."

Speaking of Gov. Bradley resigning to let Gov. Worthington be the real thing for a while, the Louisville Times says: An occasional whack at the God-like prerogative of granting pardons is enough glory and gratification for the mush-hearted old gentleman from the vernal hills of Greenup.

Judge Charles Patterson has issued a circular letter to the democratic voters of the second railroad commissioner's district, charging State Senator C. C. McChord with having voted for Major Lisle, Patterson's republican political opponent, two years ago. The Senator will doubtless deny the damaging charge.

Little Phil Thompson, who is a member of the democratic club, whose president, Perry Belmont, was so severely snubbed by Bryan, says it was the most indiscreet act of his career and that it was as uncalled for as it was indiscreet. It will lose him friends where he might have made many.

F. H. Pierpont, who established a government at Wheeling at the outbreak of the war and called himself governor, is dead, aged 86. He was the principal agitator of the division of the State before the war and the prime mover in the reorganization of West Virginia, and has since been known as the father of that State.

On his return from Nicholaville, Senator Goebel said: "It looks better for me than it has at any time within the last two months. Hardin is losing ground every day. I spoke last at Nicholaville, in Hardin's congressional district, and am absolutely confident of carrying that county, although it is contiguous to Mercer, my opponent's home."

Jack Chin will be asking: "McCarthy have you got a gun?" the first thing the Jessamine Journal knows. It says: It is detrimental to the interests of the democratic party of Kentucky, and especially of the 8th district, to have such a man as Jack Chin at the head of one of its most important committees. It is no wonder the old rooster often hangs its head in shame and the banner of the party trails in the dust.

W. P. WALTON.

IN deciding the famous Norman Barker case, the court of appeals holds that Barker was not entitled to certain fees allowed him by Auditor Norman, amounting to \$40,000 or more, but holds that the ex-auditor is not guilty of the charge made by Gov. Brown that he had conspired and colluded with Barker to defraud the State. It would have given judgment against Barker for the full amount, but all except about \$10,000 is barred by limitation and judgment only for that amount is given. This is the case that caused the great row between Gov. Brown and Auditor Norman and is the same in which Gov. Bradley gave Brown a fee of \$3,000 to prosecute in the courts after his term of office had expired and caused Norman to make the charge that the fee was given to him as a reward for work done for the republicans. The court holds also that Barker was guilty of constructive fraud in taking the fees, when the statute plainly said the only way to proceed against delinquents for license tax was by indictment and fine, and by inference the then attorney general, P. W. Hardin, was also guilty of constructive fraud in advising the auditor that the fees must be paid to Barker. This is rather tough on Hardin, who will readily go acquit by those who know him of any fraudulent intent, but he will have to plead that other almost as damaging excuse for a lawyer-ignorance of the law he was elected to defend and enforce. The republicans are in high feather over the decision and will use it for campaign material for all it is worth.

IT comes via the Cincinnati Commercial-Tribune from Frankfort and therefore is not entitled to much credence that Bryan has declared for Hardin for governor and that a further anti-Goebel slate has been made out as follows: For lieutenant governor, Thomas H. Hays, of Jefferson county; Secretary of State, John W. Headley, Hopkins county; Auditor, June W. Gayle, Owen county; Treasurer, Gus W. Richardson, Meade county; Attorney General, W. B. Fleming, Louisville. We do not believe that Bryan is taking a hand in Kentucky politics. He would be foolish to do so, besides being sure of a rebuke. A weak invention of the enemy is a mild way of disposing of the matter.

A DOZEN or more Negroes were lynched in the Red River section of Arkansas last week, under the flimsy pretext that they had incited and were preparing for a race war. The acts of the brutal creatures who took part in the hangings are a disgrace to civilization and they should be forreted out and dealt with themselves in as summary a manner. The coroner and his jury that found after viewing the bodies that "they came to their death from natural causes or were frozen" deserve almost as much condemnation and punishment for their heartless verdict.

THE nomination of Maj. Allen over Capt. May for the Senate in Fayette by a vote of 24, in a total of 38, is said to mean that Goebel will certainly carry that county. Allen was his candidate and May was backed by Bronston, who made speeches for him, and was so disgusted over the result that he left Lexington for the Western part of the State as soon as the result was announced. Bronston's fight against the Covington man is as inexplicable as it is apparently unavailing.

HON. JAMES D. BLACK, of Barbourville, says he is highly gratified at the very many solicitations for him to enter the race for governor, but for numerous and sundry reasons he says "Your candidate I can not be." At present he is sick in bed, but the editor of the Pathfinder didn't let a little thing like that stand in the way and interviewed him all the same.

THE proprietor of the recently burned Windsor Hotel, New York, will get \$150 a day on "use and occupancy" policies carried on the house until it is rebuilt. This, with the quarter of a million that his wife, who lost her life in the fire, left him, ought to keep the wolf from his door awhile.

THE president wore a straw hat while basking in the sunny breezes of Georgia, but he didn't do as much talking through it as he did through the other one when in the State before, when he caught suckers by playing them platiutes against the North taking care of the Confederate graves.

A RAILROAD is being built up Mt. Aravat and it will soon be possible to reach its top in cars. This sounds like a heavy undertaking, but it can not hold a light to Noah's performance. He reached the summit by boat, something that had never been done before and never will be again.

JOSEPH MEDILL, the Chicago editor, left nearly \$5,000,000, made in the newspaper business. Lives of great men all remind us, we can't make our millions too, but by patient earnest labor we may leave of dimes a few.

THEIR has been desperate fighting in the Philippines and although the Filipinos were put to fight they killed in three days 60 and wounded 212 Americans. Their loss is large, but not in the usual ratio of former engagements. On being dislodged from Malabon, to which they had fled, they set fire to it and it was nearly entirely destroyed. In capturing Malabon, Col. Egbert, of the 22d Infantry, was killed. On reaching Illes the Americans found it deserted and burning. In advancing towards Malolos the Americans engaged the enemy in personal command of Alfonso and after a severe fight drove them back to Malolos. The Americans are forcing the fighting all along the line and hope thus to utterly rout the insurgents and put an end to hostilities.

THE testimony of Gov. Roosevelt, who was colonel of the Rough Riders in the Cuban and Porto Rican campaigns, settles so uncontestedly the contention of Gen. Miles as to the quality of the canned beef furnished the army that the court of inquiry might as well quit and find its verdict. The governor says it was unfit to eat, had a filthy slime over it and was utterly and hopelessly unacceptable. It gave the well men diarrhea and the sick men could not take it at all. This testimony is corroborated by hundreds of others and leaves no more doubt that the canned beef sent the army under pretense of experiment was unfit even for dogs to eat than that Eagan is not a gentleman.

ROOSEVELT says he was hungry enough during the Cuban campaign to have eaten his hat, but he was never hungry enough to eat Eagan's beef. His stomach revolted when he attempted it. It is now in order for Eagan to tell to how many ways the ex rough rider and present governor of New York lies.

THE San Francisco Call says that Gov. Bradley has decided to settle permanently in San Francisco and take up the practice of law. It is said that he will be attorney for the Southern Pacific. We are still betting though that the governor won't leave Kentucky.

GUM SHOE HUNTER, who is in Louisville before returning to Guatemala, says he is out of politics for good. Doubtless he means for the good of politics. Certainly as long as there is an office with a salary attached, he will never give up his pursuit of it.

THE Philippines Co. writes us that it will carry packages to Manila at \$1 for those under \$2 pounds and that for \$200, it will take us there. Thanks awfully, but we believe we can wait till Aguinaldo is disposed of.

IT is proving a much severer undertaking to subdue our new wards than to whip their late masters and Dewey's victory in Manila may prove anything but a blessing in disguise.

ADDITIONAL LOCAL.

TO THE LADIES.—I will have any opening of Easter hats and bonnets Saturday, April 3d. Mrs. A. A. McKinney.

SMALL-POX, or rather small-pox so called, is still reported to exist among the Negroes in the Walnut Flat section. Dr. Edmonston told us yesterday he had 10 cases. The neighbors say there have been hundreds of cases of the disease, which, if small-pox at all, is of a very light variety.

FROM SOLDIER TO LANDLORD.—Capt. W. B. Penny, who was captain of Co. B, 6th Immunes, has rented the St. Asaph Hotel from Messrs. Farris & Hardin and will take possession Saturday. Well known and popular Capt. Penny should do well. Messrs. Farris & Hardin are undecided as to their future.

WORMY.—Corporal Winfred B. Portman can corroborate Gen. Miles' beef accusation. He has just returned from Porto Rico and tells us that he saw worms in the canned beef issued to the army and that the refrigerator beef was not fit to eat. "How did you live 'Pig?'" was asked. "On hard tack and coffee" was his reply.

THEIR is a general desire among the Garrard democrats for Judge M. D. Hughes to announce for representative, but he hasn't said "yes" yet. There are many who think the republicans wouldn't put up a man if the judge accepts the nomination, knowing the absolute folly in trying to beat him, even with their big republican majority.

ACQUITTED.—Fred Nicolla who was charged by the coroner's jury with having caused the death of Zach Padgett by striking his horse and causing him to run off, was before Judge Bailey yesterday, but there was not sufficient evidence to support the charge and he was discharged. The witness upon County Attorney Helm rolled, went square back on him.

DELICATE OPERATION.—A friend writes from Pittsburgh: Two weeks ago Kin Chumley, while in a scuffle with Itooco Kuhn and Andrew Patterson, was shot with a 38 Smith & Wesson pistol and thought to be mortally wounded. Dr. Jackson Givens, resident physician, and Drs. Ramsey and Caldwell, of London, operated upon him and found that the bowel was perforated in two places. These injuries were repaired and by close attention the patient is recovering rapidly.

LOTS OF LUGGAGE.—When old man Zach Padgett was killed his people were very much surprised as well as hurt not to be able to find the money he claimed to have had. There was suspicion of foul play and search was instigated for the missing luggage. It was finally rewarded a few days ago by the finding of \$2,650 in lots of \$100 or so in various and sundry places, some in old cans, under rocks etc. It is thought that it was hid by one who hoped to get it unexpected after the excitement over its loss had subsided.

RECITAL.—Miss Annie Alcorn for the Young Ladies Missionary Society of the Presbyterian church, has engaged the opera house for April 11th, for a recital to be given by Miss Nannette Camilla Heath, assisted by Mrs. Mary Garrard Beazley, for the benefit of the society. Miss Heath is a sister of Mrs. A. H. Severance and is a most talented musician, who has had the training of the best schools, being a graduate of the New England Conservatory at Boston. Those who have heard her are loud in her praise. The admission will be 25, 35 and 50c, the last amount for reserved seats.

MACK FERRELL, who killed Samuel Engleman here in 1893 over a game of cards, had his life sentence commuted to 10 years by Gov. Worthington yesterday. Counting off good time, Ferrell will be at home in 26 months, unless Worthington decides to let him come home sooner as he doubtless will. Ferrell has made an exceptionally good prisoner and is said to be thoroughly reformed. John R. Farris, a brother-in-law of the dead man, got onto the effort in Ferrell's behalf and employed Judge Denby to go to Frankfort and protest against it, but the old man had his head set. The report current at Lancaster yesterday that Judge Saufley and Commonwealth's Attorney Owsley had recommended the commutation proves untrue.

LEHANON.—The Lincoln county people who have become residents of Lehman during the last few years are not only the best citizens of that town but are all doing well. Mr. Benedict Spalding, who farmed for years near Shely City, is county attorney and besides enjoys a lucrative practice; W. F. Cabell, a former Hustonville boy, is one of Lebanon's best grocers; H. N. Ware, who farms in Washington county and makes money under any and all circumstances, lives in Marlon's capital and is giving his children a splendid education. John Lee Elkin has two butcher shops there and one at Springfield, all of which are gold mines; W. B. Holderman has a grist mill, while his son, J. D. Holderman, is manager of the electric light plant and son-in-law John A. Wallace, is a leading blacksmith. All of them are proud of their adopted home but the warm welcome they give a Stanford man shows plainly that they love the "town in a hollow" yet and forget not their friends of yore. By the way Mr. Cabell has a fine young son named for Mr. Jesse P. Riffe, of the West End. Lebanon is not growing much but she is holding her own, which is pretty good these quiet times. She needs a court-house badly, but it would be hard to convince the tax-payers of that truth.

MATRIMONIAL MATTERS.

Solomon Byerly and wife, of Borden, Ind., have just celebrated the 70th anniversary of their marriage.

Mrs. John Dunn and Miss Minnie Flynn were under arrest at Morehead for killing the former's husband.

To stimulate the matrimonial market the county clerk of Fayette will sell marriage licenses at \$1 for the next 10 days.

Miss Lillian, daughter of Hon. Boyd Winchester, will be married to Mr. Louis Jones, of New York, at Louisville April 4.

Bob Burdett, the humorist, was married at Los Angeles, Cal., to Mrs. Clara Baker. It is hoped he didn't get an invalid this time.

J. O. Skiles, a bachelor of 29 years, and Mrs. Lucy Dawson, a widow one year his senior, were married at Owenton. It is the woman's third venture in this line.

William Steele, of Baltimore, holds the record for marrying. He is only 25 and has just married a third wife, who is twice his age and the mother of six living children.

A Cincinnati judge denied divorce to a man who asked it because his wife deceived him in the matter of eyes, one of them being glass, holding that women have the legal right to attract mankind with devices and attachments to improve the work of nature and a glass eye is no worse than false teeth.

LAND AND STOCK.

In Hardin county 25 fat young mules sold at \$120.

F. P. Bishop bought of G. A. Swinebroad 48 two-year-old steers at \$14.

H. N. Ware, of Washington county, has sold his lambs for July delivery at 5c.

John B. Foster sold to a Lexington firm two car loads of hay at \$8 per ton here.

Good second-hand Deering Binder for sale cheap. M. S. Baughman, Stanford.

At Danville, Ill., 47 Poland Chinas averaged \$28.25 and eight Durcos \$23.44.

Commissioner Lucas Moore announces that all of the \$728.75 worth of seed he had for distribution is exhausted and there is no more to send.

It took chloroform 21 minutes to do the work for Hanover. In order to keep him from eating too much he was muzzled. This made him mad and he pawed the stall, injuring his leg in which gangrene set up. He cost Col. Young \$1,500 and earned for him \$900,000 and more. He declined offers of \$65,000 and \$75,000 within the last three years. He was only 14 years and was a son of Hindoo and Bourbon Belle.

There was not much demand for either.

William Steele, of Baltimore, holds the record for marrying. He is only 25 and has just married a third wife, who is twice his age and the mother of six living children.

A Cincinnati judge denied divorce to a man who asked it because his wife deceived him in the matter of eyes, one of them being glass, holding that women have the legal right to attract mankind with devices and attachments to improve the work of nature and a glass eye is no worse than false teeth.

MR. W. T. RICHARDSON, who is to run the new store at Junction City, was here yesterday busy packing up the goods of the Blue Grass Grocery, which are being taken away today, leaving that establishment as a hideous memory to some of our grocers.

THE promotion of Capt. Ben D. McGraw, of the Blue Grass Special, to be train master of the Cincinnati Southern, is a most deserving one. He is the oldest and best conductor on the road and is as popular as he is painstaking. The traveling public will rejoice at his good luck while regretting to loose him from his train.

S. M. CARSON, who used to live here, has announced his candidacy for re-election to the Legislature in his Louisville district. As he is a republican and his district has a majority of Negro voters, he will doubtless read his title clear. Mr. Carson became famous when in the Legislature before a little note that he wrote, which gained great publicity.

DANVILLE merchants are almost as well represented in this paper as our home ones. Read A. B. Robertson & Co.'s spring announcement.

COLLIER.—Mrs. Martin Collier died at Rowland of brain fever Sunday, aged 36, and was buried at Goshen yesterday. Only the husband survives.

AFTER raining the best part of the year, it was pouring down this morning like it had just begun. A heavy thunder storm occurred last night and the heavy rain was varied once or twice by hail.

TO THE LADIES.—Miss Jarboe has just returned from a two weeks' stay in Cincinnati with a beautiful line of hats and bonnets for Easter, to which we call your attention. Miss Lizzie C. Healey.

THE Presbyterian ladies will have their flowers on sale at Hardin's window, in the St. Asaph building, Thursday. They invite all the ladies to call and inspect their stock. Best varieties on hand and all fresh.

PARDONED.—Jno. H. Jarrett, of Brodhead, who killed Buck Padgett at Mt. Vernon in 1898, and was given a five years' sentence, is a free man again. Gov. Worthington on a petition stating that Jarrett was an upright and honorable citizen at the time of the killing, and that Padgett was dangerous, vicious and troublesome, pardoned him.

BOUGHT 'EM OUT.—Theodore Wesley, who has conducted a successful drug business at Middleburg for years, swooped down on McKinney Friday and bought out the drug stocks there of J. H. Vanhook, K. L. Tanner & Son and Dr. W. L. Lowder. He has rented Mr. Vanhook's store-room and will move the several stocks into it at once. Mr. F. M. Ware is a partner of Mr. Wesley in the business and the firm name will be Ware & Wesley.

DISCHARGED.—Skete Powell, who had been gunning for several parties since he was shot through his own window, was tried on a peace warrant Saturday before Judge Bailey and acquitted. It seems that he has been acting badly in connection with Ben Dunn's wife and that the purpose to get rid of her was to stop a scandal. The judge in dismissing the case took occasion to give Powell a lecture on the 7th commandment.

NEGRO sharpers are working their gullible brethren in Boyle and reaping a small harvest by telling them the last Congress passed a bill allowing all ex-slaves a pension of \$12 a month and that for a few rated according to the ability of the sucker to pay, they will substantiate his claims. The sharpers doubtless got the cue from Davison, who is said to have promised the Negroes something of the kind during the last campaign.

WHEAT.—Mr. John Bright tells us that the wheat prospect is rather below the average for the season. Many of the fields are spotted by the plants being killed in places. Mr. Bright says that farmers generally sow their wheat too thick. The agricultural department sent him 100 pounds and he sowed it 40 pounds on one acre and 60 pounds on another. Then he sowed the rest of his crop at 75 pounds to the acre. The result is that the 40-pound acre is much the best at present and will doubtless yield fully as much as that with nearly double as much sown grain.

The admiral business seems badly overdone. Counting Admiral Dewey there a 10 in the navy, which has only 18,000 men. This gives what is equivalent to a brigadier general or better, for every 1,000 men and one general officer to spare.

The Raleigh, one of the ships of Dewey's fleet, which immortalized itself at the battle of Manila, is nearing Norfolk to be docked. It is the first of the memorable ships to return to America since that glorious May day and she will be given a royal welcome.

Col. H. C. Egbert, of the 22d Infantry, was killed in the thickest of the fight at Manila. He was a hero of three wars, having been wounded at Bethesda in the civil war, wounded at San Juan in the Spanish war and killed in battle with the Filipinos. He was from Newark, O.

In order to curtail the authority of Gen. Miles, Secretary Alger has decreed that no officer of the various staff corps should be detailed to any duty except on the authority of secretary of war. This means that Gen. Miles is to have no authority over the officers in the departments under him, and that Secretary Alger to be the whole thing.

MIDDLEBURG.

The Middleburg band now practices every Friday night.

Mormons have been at work in Casey of late. Their last meetings were held at Grove.

Farmers are busy fencing and are trying to get in readiness to put in their corn. But very little plowing has been done on account of the continued wet spell.

There is some talk of putting a bridge back at the Godbey ford. If not so, the bridge will make a last endeavor to have the school district divided and erect a building at that place.

Capt. Penny's Casey county boys have returned to their homes with joyous (?) recollections of the past, but it is to be understood they want no more volunteer service and Algerian in theirs.

Dr. J. T. Wesley came near losing his life a few days ago while crossing Carpenter's creek. He got into deep, swift water and was washed from his horse and it was only by chance he escaped a watery grave.

Earl Edwards of Co. H. 22d Infantry, who was painfully wounded on the fighting line in the vicinity of Paigl, Phillipine Islands, was formerly a private in the Middlesboro company, 2nd Ky. His home is at Winchester.

CLARENCE COLEMAN.

Sam Jones, who was in Cincinnati returning from Toledo, where he said he had 2,000 converts, was asked how he stood on the expansion policy, when he said: "Stand, as I have always stood, tattooed against it. There is no sense in this wild goose chase for tribal territory on the other side of the globe, and what do we want with those hybrids and half baboons if they were to come begging on their bellies for annexation? We can not take care of our own crowd at home, much less of these savages thousands of miles away. We never did much in a century toward elevating the Indian at our door."
